

# international & ITFS

## THINK GLOBALLY.

Expand your reach with International service from USA Digital. With service to over 200 international destinations, USAD International Termination will keep you connected with remote employees and customers abroad. USAD uses quality routes for your international business traffic ensuring **quality connections** between domestic and international markets.

USAD's International Toll Free Service (ITFS) allows your customers a convenient method to communicate with you, at **no charge to them**. With service from more than 65 countries, our toll free offerings provide an effective presence in the international space.

Whether termination or toll free, our redundant voice network has built-in safeguards to complete your calls with **reliability and quality** you've come to expect.

Bottom line: we'll increase your revenue and customer satisfaction by removing the barrier for customers to call you.

### Fraud Detection

International fraud is a reality, but it does not have to be devastating to your business. USAD provides the **trust and security** you deserve—with multiple options available to monitor and protect you against fraudulent activity. With the use of alarm thresholds or call blocking to specific countries, USAD can help you manage and minimize the potential for international fraud.

## Termination & ITFS
