USA DIGITAL

Dedicated Internet Access (DIA)
Stay connected with high-speed internet access that drives business.
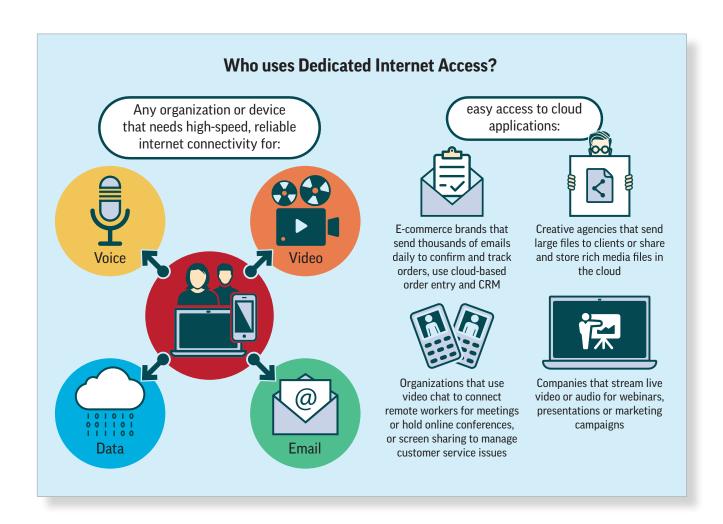

Always-On Internet Means Less Downtime, Greater Productivity for Your Team

Dedicated Internet Access (DIA) is your pipeline to increased productivity, information access and business savings with its instant, always-on connectivity—to your customers, your devices, your employees and your cloud applications.

With dedicated internet access from USA Digital, your team can transmit and receive anything, anytime—data, voice, email, apps and video—with a reliable, high-speed connection. The bandwidth is dedicated to your location, performance is optimal, and the connection is secure.

DIA offers fast uptimes and the efficiency of one pipe for all applications, from company emails to IoT to unified communications. This enables your users to be more productive with cost-effective connectivity that also keeps smart devices communicating as expected.

Who uses Dedicated Internet Access?

Any organization or device that needs high-speed, reliable internet connectivity for:

- Voice
- Video
- Data
- Email

easy access to cloud applications:

E-commerce brands that send thousands of emails daily to confirm and track orders, use cloud-based order entry and CRM

Creative agencies that send large files to clients or share and store rich media files in the cloud

Organizations that use video chat to connect remote workers for meetings or hold online conferences, or screen sharing to manage customer service issues

Companies that stream live video or audio for webinars, presentations or marketing campaigns

Dedicated Internet Access from USAD

USAD delivers the best internet reliability on the largest, most advanced IP networks in the country. We offer a range of bandwidth plans, from T1 capacity up to 1GB which means we can scale up your capacity and maximize throughput, via fiber or copper, depending on your needs. Understanding that different media place different demands on your system, USAD will help you determine the best way to keep your DIA up to speed. Plus, with USAD you get:

- Our proactive network monitoring
- 24/7/365 customer service
- High performance network backed by strong SLA policies
- Ability to add firewalls and encryption to safeguard data
- Extensive reach throughout the U.S., Puerto Rico and U.S. Virgin Islands

Discover the USAD Difference

USA Digital offers a robust suite of long distance, voice, and data communications services for small and medium-sized businesses, Fortune 500 companies, and local exchange and national telco carriers across the country. USAD's custom solutions enhance connectivity, communications, and profitability. Our clients also rely on USAD—a leading national interexchange carrier—for our deep expertise in telco provisioning, engineering, implementation and service. From our deep bench of technical and engineering professionals to our vast and reliable network, our array of platforms and cost-saving technology to our superior support … **we're passionate about performance.**
